

# ACT IN SPACE 2018

## Local Competitions in Cracow

### *Report*

**Date:** May 25-26, 2018

**Venue:** Krakowski Park Technologiczny (KPT), Cracow, Poland.

Act In Space (AiS) Hackathon in Cracow was organized at Cracow Technology Park, the modern building in the Cracow Scientific and Technical Park area in Ruczaj – the new district of Cracow, on May 25-26, 2018. KPT is one of the Polish partners in BSA project.

The hackathon in Cracow was the first step in three-stage AiS competition with the international final in Toulouse in the end of June 2016.

CUT team prepared and registered at the international AiS webpage the BSA challenge

For the competition in Cracow, we have registered **7** teams with **21** participants . Detailed information about teams and participants is attached as Appendix 1 to this report. All teams selected BSA challenge.

The following people were involved as mentors and evaluators of the prepared projects:

- Joanna Kolodziej – Cracow University of Technology, BSA CUT team
- Piotr Szuster - Cracow University of Technology, BSA CUT team

- Jaroslaw Chojnacki – KPT Team
- Sonia Bazan – invited expert
- Michał Lupa - invited expert
- Tomasz Machowski - invited expert
- Michał Moroz - invited expert
- Artur Surowiecki - invited expert

The experts were with the participants during the whole time. They talked with all the teams separately, explained all the details related to the Copernicus platform and data, also discussed some business aspects.

After dynamic discussion of the evaluators, the winner of the Cracow competitions was the OneOn team with the Vinium 4.0 project. The team won the sponsored trip to the final in Toulouse and delegation to the national final in Warsaw. The second was the SpaceFolks team with the GoWild project. They were selected to the national competitions in Warsaw. Finally they could also join OneOn in Toulouse.

The rest of the participants have received some souvenirs and diplomas for participation.
